

Join your studio in 3 minutes

A short guide for new members: download Habeats, scan your studio's code and sign up. No experience needed.

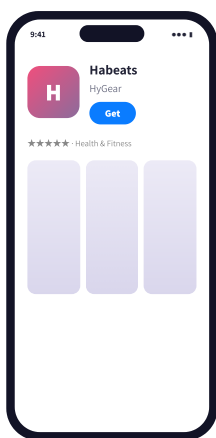

↓ **Download the app**

The link detects your phone and automatically opens the right store: the App Store on iPhone or Google Play on Android.

Viewing this guide on a computer? Point your phone's camera at this code to download the app.

All steps on one page

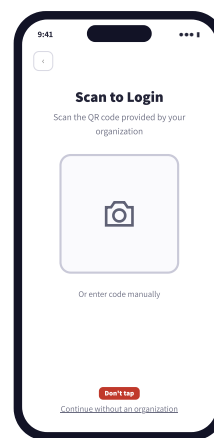

1. Download the app

Tap "Download the app". In the store, tap "Install" or, on iPhone, "Get". Once installation is complete, open Habeats.

2. Tap "Let's get started"

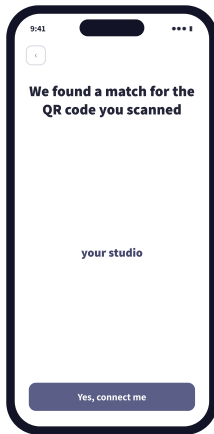

On the welcome screen, tap "Let's get started".

3. Scan the studio's code

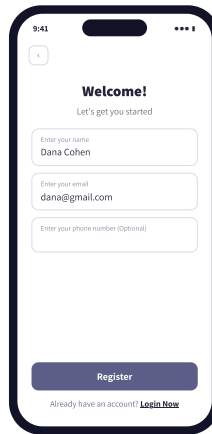

Tap the camera icon, then point your camera at the studio's QR code. You'll find the code at the studio, or you can get it from your trainer.

💡 If the app asks for camera access, allow it. Don't tap "Continue without an organization": that option won't connect you to the studio.

4. Confirm it's your studio

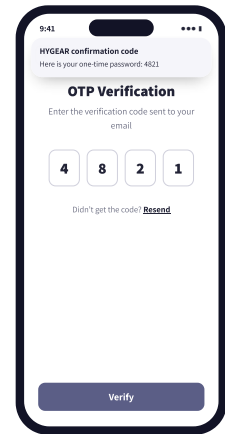

The studio's name will appear on the screen. If it's your studio, tap "Yes, connect me".

5. Enter your details

Enter your full name and email address. A phone number is optional. Tap "Register".

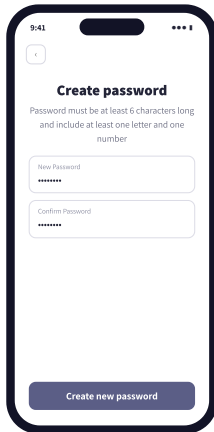

💡 Make sure you use an email address you can access. Your verification code will be sent there.

6. Enter the code from the email

You'll receive an email from HYGEAR with a 4-digit code. Enter the digits in the boxes on the screen.

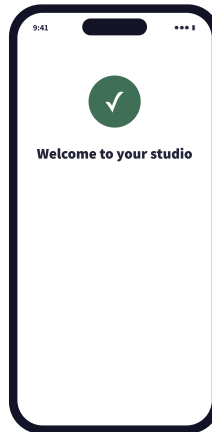

💡 Haven't received the email? Check your spam folder or tap "Resend" on the screen.

7. Create a password

Choose a password with at least 6 characters, including at least one letter and one number. Enter it twice and tap "Create new password".

💡 Write down your password somewhere safe. You'll need it to log in again.

8. You're now connected to the studio

A "Welcome" screen will appear with the studio's name, and the app will open. You're now connected to the studio.

💡 If you see "Account Pending Approval", the studio needs to approve your account before you can join. Once approved, you can get started.

Frequently asked questions

► I already have a Habeats account. What should I do?

► My camera won't scan the code

► I haven't received a code by email

► I forgot my password

► **Still need help?**
